

product overview driver units permanent magnet

model:	MA5
freq. range:	200-20 kHz
cone diameter:	85 mm
impedance:	8 Ω
price*:	€ 220,-

model:	LB5
freq. range:	200-20 kHz
cone diameter:	85 mm
impedance:	8 Ω
price*:	€ 220,-

model:	LB6
freq. range:	45-18 kHz
cone diameter:	130 mm
impedance:	8 Ω
price*:	€ 235,-

model:	LB7
freq. range:	40-18 kHz
cone diameter:	150 mm
impedance:	8/16 Ω
price*:	€ 320,-

model:	LB8
freq. range:	28-18 kHz
cone diameter:	180 mm
impedance:	8/16 Ω
price*:	€ 340,-

model:	LB12
freq. range:	35-15 kHz
cone diameter:	270 mm
impedance:	8/16 Ω
price*:	€ 480,-

model:	B15
freq. range:	20-4 kHz
cone diameter:	380 mm
impedance:	8/16 Ω
price*:	€ 840,-

** price of a single unit, exclusive dedicated fieldcoil powersupply*

EMS is a French developer of exceptional high performance and high quality speakers. Forty years of experience have led Michel Fertin to developing a wonderful musical product. EMS stands for: field coil drivers, full range drivers, cellulose paper membranes, reliability, high efficiency, and above all: musicality. Loudspeaker manufacturer Musical Affairs in the Netherlands now uses EMS drivers in all their products.

ElectroMagnet Speaker
